#### Detailed Actions

1. Preliminary amendment received on 5/19/2005 is entered.

- a. Substitute Specification is entered.
- b. Claims 1-5 are cancelled.
- c. Claims 6-18 are entered.
- d. Claims 6-19 are pending in the Application.

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 6 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Nishida et al. (5,394,288). Nishida et al. disclose an Actuator comprising a positive temperature coefficient circuit protector (Fig.5, Pos. 20) which includes two positive temperature coefficient resistors (Pos. $R_{\text{TN1}}$  and  $R_{\text{TN2}}$ ) having a predetermine temperature threshold and two diodes (D1 and D2). The positive temperature coefficient circuit protector is connected in series with DC circuit (11). The positive

Application/Control Number: 10/735,361 Page 3

Art Unit: 2836

temperature coefficient circuit protector allows current flow in a first direction and in opposite direction when the positive temperature coefficient circuit protector is below the 'temperature threshold. When current flowing in one direction (for instance in direction A) exceeds a threshold value, resistance of  $R_{\text{TN1}}$  drastically increases and, in result, the current flow in direction A will be blocked, but the current flow in opposite direction (direction B) will be allowed (through D2 and  $R_{\text{TN2}}$ ).

#### Allowable Subject Matter

- 3. Claims 15-18 allowed.
- 4. Claim7-9 and 11-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

# The following is an examiner's statement of reasons for allowance:

5. Independent Claim 15 is allowable because none of the prior art of record disclose an anti-pinch and electrical motor

Art Unit: 2836

protection circuit comprising a first and a second positive temperature coefficient protectors having a first and a second predetermined temperature thresholds and a diode in parallel with the first positive temperature coefficient protector in combination with the other claim limitations.

- 6. Claims 7 and 11 would be allowable because none of the prior art of record disclose an anti-pinch and electrical motor protection circuit comprising a first and a second positive temperature coefficient protectors having a first and a second predetermined temperature thresholds and a diode in parallel with the first positive temperature coefficient protector in combination with the other claim limitations.
- 7. Claims 8-9 and 12-14 would be allowable because they are dependent on would be allowable claims

#### **Contact information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Boris Benenson whose telephone number is (571) 272-2048. The examiner can normally be reached on M-F (8:20-6:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be

Application/Control Number: 10/735,361 Page 5

reached on (571) 272-2800 ext 36. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
